Leaders

Purpose of EML?

is designed to respond to this growing diversity in our public schools and communities, and to help PTA serve all children and families

EML Events

Are designed to respond to the growing diversity in our public schools and communities and to help PTAs throughout the state best serve all children and families. Participants from across the state will have the opportunity to learn about cultural competence, network with other parent leaders, and take home practical strategies for increasing inclusion and PTA involvement in their schools.

These events are for you if you:

- Support Diversity and Inclusion,
- Are interested in growing as a PTA leader, and
- Want an opportunity to share experiences with fellow emerging minority PTA leaders.
